Table Assembly Instructions

Step 1 - Remove Collar from Center Post by turning counter-clockwise. The Collar is not used when Table is added.

Step 2 - Spin Table clockwise onto Center Post. **Gently tighten just until it stops. DO NOT OVER-TIGHTEN.**

The Table needs a little room to expand and contract. Please do not attempt to align the cup holders in any particular position.

Step 3 - Using a power driver or short handle Phillips Head screwdriver, attach Table onto Center Post using the 2 screws underneath the table. Apply firm pressure to drive screws into the Center Post sidewall. Be sure screws are fully seated but do not over-tighten. Over-tightening may strip the holes. **Note: Please secure the Table with the 2 screws to prevent voiding the warranty.**

Note: Please do not move your Rolling Umbrella Base by holding onto or pushing with the Table.
